"The Chicago Theatre Fire" (A Story of the Iroquois Fire) Words and Music by Burkard

# KEEP YOUR EYE ON THE BUNCO MAN

3—The hootchy cootchy man will do the best he can,  
To entertain you, one and all;  
Then the man from Kalamazoo, will sing a verse or two,  
Of the very latest song, After the Ball.  
But we'll hit him with a brick, if he sings this song,  
you bet,  
And some other man will have to take his place;  
The Police will surely collar him, six months the Judge  
will yell at him,  
But the jury makes it years instead—Ta Ra Rum.

4—Democrats will all be there, Delegates from ev'rywhere,  
Will try to nominate their man.  
At the bar they will be found, rushing the can around,  
And marching to the solo of the drum.  
Teddy Roosevelt, you will see, on his gray mare he  
will be,  
To welcome his Rough Riders from afar.  
A brigade they ought to form, so they could help the  
Japs along,  
And it's home the Russians then would run—Ta Ra Rum.

## CHORUS.

Keep your eye on the Eastern War, keep your eye on the Eastern War,  
Things are looking so blue, for the Russians, that's true,  
Keep your eye on the Eastern War  
Keep your eye on the Russian Bear, keep your eye on the Russian Bear,  
Japs are after them so, at Port Arthur, you know,  
Keep your eye on the Russian Bear.
